

(3)

RNA Bases:- RNA also contains four different bases,
 adenine, guanine, cytosine, and uracil. RNA contains
 (i) Purines: adenine, guanine, cytosine
 (ii) Pyrimidines: uracil, thymine, cytosine

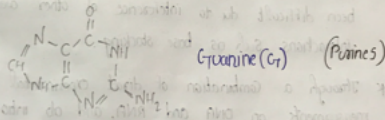

DNA Bases:-

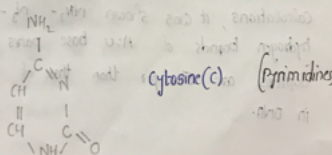

Adenine (A) (Purines)

Thymine (T) (Pyrimidines)

Guanine (G) (Purines)

Cytosine (C) (Pyrimidines)
